**RE: Monroe Energy -- Trainer Refinery Storage
Storage Tank 100 (PA DEP ID 015A) Registration Amendment**

Dear Mr. Rebarchak:

I discussed with Mr. Alex Hess, Above Ground Storage Tanks Environmental Trainee, the possibility of registering Tank 100 (PADEP ID 015A) in such a way that registration could identify and include other distillates with like chemical and hazard properties.

Mr. Hess conferred with the PADEP Tanks Compliance Department and confirmed that it would be acceptable to interchange the following products within Tank 100:

- Diesel
- Marine Diesel Oil (MDO)
- Light Cycle Fuel Oil (LCO)
- Transmix

The conditions of the registration amendment will ensure that all four (4) products with cas numbers are identified on form, and (2) that tank 100 storage label be modified to identify the correct product within the tank when service is changed.

Thank you for your consideration and for granting our request; should you have any questions or need anything further, please contact me at (610) 364-8073.

Sincerely,

Stephani Ski Szymanski, M.S.
Environmental Engineer
